Why do I need this (course name or discipline)? Poster

Create poster that prompts students to consider the value of a course, or discipline and answers the question "Why do I need to learn this stuff?" **Remember to include the title of the course or discipline in heading.**

Use both words & graphics to make the poster more interesting and appealing. If you need help getting started, consider using a 4 or 6-grid approach to create or insert information. Below are suggestions how/what kinds of information you might include.

In this section, ask "Do You" questions to identify **interests/skills/abilities**	In this section identify the **Career Personality Type*** that most closely reflects common career characteristics You may also list other career personality types you think relevant. *Based on Holland's Theory of Career Choice – Realistic, Investigative, Artistic, Social, Enterprising, Conventional The characteristics of each type should be identified.
In this section list **related coursework** that would be beneficial for a student interested in this careers related to this subject area	In this section, **identify career opportunities.** Provide specific names of careers – not just Business, for example. Instead, business manager, accountant, actuary, administrative support, stockbroker.
Instructors & Credentials List the names of all staff in this department; include their highest degree earned and the name of the college from which they graduated. This information gives credibility to your staff & program.	In this section, **identify other career clusters and jobs within those clusters** that use the skills/knowledge and experiences gained through your courses/discipline so that students will see how the experiences from your classes apply to other areas and a wide variety of career fields.
